Maybe even better than free.

If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. Simply upload your file and share the link. We have no file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Why pay storagefees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within theirapps. Files can be downloaded from any computer from our high speed servers. File is free to use with no gotchas and no hidden fees. So try our free andsimple filehosting service now. You decide who you want to share your files with. Alternatively you can choose to share your download links on blogs, forumsand social networking sites. You don't need any special software installed to be able to download your files. There are no restrictions on the number of times afile can be downloaded. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Whenyou use file, you avoid storing the file you're sending in your cloud storage or mail server. Using file, you can circumvent those limits without paying toupgrade your team chat service. Any file in any format can be uploaded and downloaded for free. You can give this download link to your friends by mail orinstant messenger. No account or credit card is required to get started. Just upload the file you want to share with your friends and we send you a download linkto your file. Unfortunately, we can't make that part free. The cost of that data transfer is covered by your internet service or the data plan on your phone. Youcan upload any type of file (movies, music, documents, images, zip files and more). It is also allowed to link to the download page from websites andcommunities. Keep your files private, or send your download links only to friends or family. filehosting provides an easy possibility for you to send large filesto your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computeror phone and our servers, then from our servers to your friends device.
