Using file, you can circumvent those limits without paying to upgrade your team chat service. You don't need any special software installed to be able to download your files.

Keep your files private, or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. If only we could, we surely would! On the other hand, using file can actually save you money. You decide who you want to share your files with. This is easy, fast and reliable file hosting! You don't need any kind of premium accounts. It is also allowed to link to the download page from websites and communities. Our service is completely free for everyone. So try our free and simple file hosting service now. File is free to use with no gotchas and no hidden fees. We have no file size limit. Simply upload your file and share the link. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can give this download link to your friends by mail or instant messenger. Alternatively you can choose to share your download links on blogs, forums and social networking sites. File hosting provides an easy possibility for you to send large files to your friends. No account or credit card is required to get started. You can upload any type of file (movies, music, documents, images, zip files and more). Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.
