Maybe even better than free.

Simply upload your file and share the link. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. You don't need any special software installed to be able to download your files. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. Files can be downloaded from any computer from our high speed servers. You decidewho you want to share your files with. You can give this download link to your friends by mail or instant messenger. We have no file size limit. Any file in any format can be uploaded and downloaded for free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. If only we could, we surely would! On the other hand, using file can actually save you money. When you use file, you avoid storing the file you're sending inyour cloud storage or mail server. There are no restrictions on the number of times a file can be downloaded. Why pay storage fees for a file that you justwanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can upload anytype of file (movies, music, documents, images, zip files and more). Keep your files private, or send your download links only to friends or family. No accountor credit card is required to get started. It is also allowed to link to the download page from websites and communities. Using file, you can circumvent thoselimits without paying to upgrade your team chat service. So try our free and simple filehosting service now. Your wallet will be none-the-lighter! Just so we'reall 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friendsdevice. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free. filehostingprovides an easy possibility for you to send large files to your friends.
