[Updated : Wednesday 09 June 2021](#)

Maybe even better than free.

Using file, you can circumvent those limits without paying to upgrade your team chat service. filehosting provides an easy possibility for you to send large files to your friends. Files can be downloaded from any computer from our high speed servers. Any file in any format can be uploaded and downloaded for free. No account or credit card is required to get started. Our service is completely free for everyone. The cost of that data transfer is covered by your internet service or the data plan on your phone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. If only we could, we surely would! On the other hand, using file can actually save you money. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You can upload any type of file (movies, music, documents, images, zip files and more). You can give this download link to your friends by mail or instant messenger. File is free to use withno gotchas and no hidden fees. We have no file size limit. Simply upload your file and share the link. It is also allowed to link to the download page fromwebsites and communities. You don't need any special software installed to be able to download your files. Keep your files private, or send your download linkonly to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. Alternatively you can choose toshare your download links on blogs, forums and social networking sites. There are no restrictions on the number of times a file can be downloaded. So try ourfree and simple filehosting service now. Unfortunately, we can't make that part free. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to share your files with. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees.
