So try our free and simple filehosting service now. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. We haveno file size limit. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. If only we could, we surely would! On the otherhand, using file can actually save you money. The cost of that data transfer is covered by your internet service or the data plan on your phone. File is free to usewith no gotchas and no hidden fees. You can upload any type of file (movies, music, documents, images, zip files and more). Our service is completely free for everyone. Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends. Unfortunately, we can't make that part free. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. There are no restrictions on the number of times a file can be downloaded. Simply upload your file and share the link. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. No account or credit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. You can give this download link to your friends by mail or instant messenger. Just upload the file you want to share with your friends and we send you a download link to your file. You don't need any special software installed to be able to download your files. It is also allowed to link to the download page from websites and communities. You decide who you want to share your files with. Why pay storage fees for a file that you just wanted to send to a friend o
