Maybe even better than free.

Keep your files private, or send your download links only to friends or family. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. Files can be downloaded from any computer from our high speed servers. So try our free and simple filehosting service now. Any file in anyformat can be uploaded and downloaded for free. It is also allowed to link to the download page from websites and communities. If only we could, we surelywould! On the other hand, using file can actually save you money. No account or credit card is required to get started. Our service is completely free foreveryone. You can give this download link to your friends by mail or instant messenger. Simply upload your file and share the link. We have no file size limit. Alternatively you can choose to share your download links on blogs, forums and social networking sites. You don't need any special software installed to beable to download your files. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred betweenyour computer or phone and our servers, then from our servers to your friends device. You decide who you want to share your files with. This is easy, fast andreliable filehosting! You don't need any kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more).File is free to use with no gotchas and no hidden fees. Just upload the file you want to share with your friends and we send you a download link to your file. Thecost of that data transfer is covered by your internet service or the data plan on your phone. When you use file, you avoid storing the file you're sending in yourcloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of timesa file can be downloaded. Unfortunately, we can't make that part free.
