Maybe even better than free.

You can upload any type of file (movies, music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. There are no restrictions on the number oftimes a file can be downloaded. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don'tneed any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to your file. Our service iscompletely free for everyone. You can give this download link to your friends by mail or instant messenger. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. Simply upload your file and share the link. Unfortunately, we can't make that part free. Any file in any format can beuploaded and downloaded for free. So try our free and simple filehosting service now. Keep your files private, or send your download links only to friends orfamily. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. You decide who youwant to share your files with. If only we could, we surely would! On the other hand, using file can actually save you money. File is free to use with no gotchasand no hidden fees. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. It is also allowed to link to the downloadpage from websites and communities. We have no file size limit. The cost of that data transfer is covered by your internet service or the data plan on yourphone. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Alternatively you canchoose to share your download links on blogs, forums and social networking sites. filehosting provides an easy possibility for you to send large files to yourfriends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer orphone and our servers, then from our servers to your friends device.
