Maybe even better than free.

We have no file size limit. You decide who you want to share your files with. No account or credit card is required to get started. Our service is completely free for everyone. Simply upload your file and share the link. Just upload the file you want to share with your friends and we send you a download link to your file. Files can be downloaded from any computer from our high speed servers. There are no restrictions on the number of times a file can be downloaded. If only we could, we surely would! On the other hand, using file can actually save you money. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free.File is free to use with no gotchas and no hidden fees. So try our free and simple filehosting service now. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. You can give this download link to your file(movies, music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many teamchat apps have limits to the size of files that can be transferred within their apps. filehosting provides an easy possibility for you to send large files to yourfriends. It is also allowed to link to pile up and be forgotten about, eventually costing you money in data storage fees. You don't need anyspecial software installed to be able to download your files. Alternatively you can choose to share your download links on blogs, forums and social networkingsites. Any file in any format can be uploaded and downloaded for free.
