What are the biggest ironies in India?
Anonymous
Updated Wed
I am from India, working in USA. I work for SpaceX. So my day usually involves developing code (engineering) which is eventually responsible for sending people to mars.
My family and I are currently looking for a suitable match for me (standard arranged marriage). So when I call my family in the evening, we talk about the mars causing issues in my Kundali for marriage (Mangal dosh)
This is the biggest irony I face in a single day .
