You will also find instructions for your machine online via the Brother solutions centre Note We find that Butterfly and Singer Branded needles are often not compatible with Brother sewing machines and may cause issues with your machine not picking up lower thread. We would recommend using either Organ or Schmetz branded needles. Rethread the machine following the instructions in your manual and ensure that the foot is raised. If there is tension when pulling the thread, then the thread may be unsuitable for machine sewing and should be replaced with machine sewing thread from a reputable brand. It's possible there be a timing issue with your machine. Contact your Brother dealer to arrange a service or contact our customer service team. Make sure the presser foot is lifted before threading the machine. Set your bobbin correctly into the machine. For top loading bobbins, the thread needs to be going around the bobbin in an anticlockwise direction. Use the guides on your machine or refer to your instruction manual. If you have a mechanical machine, check that the foot is lowered before sewing. Computerised machines will remind you to do this. Using thread that does not pull through smoothly can cause thread breakages, poor stitching or damage to your machine. For best results, you should use a good quality, branded thread. The thread should pull through the machine with no tightness. With its large color LCD touch screen display, inspiring built-in embroidery designs, creative sewing features and expanded workspace, the SE600 offers plenty of options to help bring your creative visions to life. The large, 3.2" Sew Smart color LCD touch screen display allows you to view your embroidery designs in full color and preview your design edits on the screen before stitching. Built in to the SE600 are 80 fresh, high quality embroidery designs, and for virtually un design options, you can import your own embroidery designs through the USB port.

<http://genialica.com/images/compustar-5532a-jr1600-manual.pdf>

Enjoy expanded embroidery design editing features such as the ability to change individual thread colors, place lettering in an arc, move designs on the touch screen display with the touch of a finger, and much more. The expanded 6.4" w x 4.1" h needle-to-arm workspace gives you more room to fold larger projects such as quilts to the right of the needle, for easier sewing. For even more creative sewing options, included are 7 quick-change sewing feet, with spring action zigzag, buttonhole, overcasting, monogramming, zipper, blind stitch and button sewing feet. The spring action zigzag foot has a longer foot, and, combined with the longer 7-point feed dogs, help provide improved fabric

feeding for smoother sewing. Easily change individual embroidery thread colors using the builtin color palette, and then preview before stitching. A real eye saver, and especially useful when embroidering designs that require multiple thread changes. The high quality decorative stitches include greek key, decorative scrolls, scallops, waves, feather, stars and hearts. Select from captial, lower case, numeric and symbol characters. Each of the fonts is available in small, medium and large sizes, to suit your project. Brother customers have exclusive access to 1000s of embroidery designs on iBroidery.com, for virtually unlimited design options. All Brother machines come with free online and phone technical support for the life of the product. Amazon calcula la calificacion de estrellas de un producto utilizando un modelo de aprendizaje mecanico en lugar de un promedio de datos sin procesar.

El modelo de aprendizaje mecanizado toma en cuenta factores que incluyen la edad de una opinion, los votos de ayuda de los clientes y si las opiniones pertenecen a compras verificadas. Vuelva a intentarlo en otro momento. Brother tiene refacciones y centros de servicio en todo el pais por lo que puedes estar tranquila. Yo conozco poco de maquinas de coser, la compre para mi esposa y sobre todo por la funcion de bordar pero ya tuve oportunidad de usarla le ayude a coser las fundas navidenas para los cojines de la sala y la verdad fue de lo mas sencillo. Puedes elegir la velocidad a la que cose por lo que tienes oportunidad de aprender sobre la marcha y sin miedo y todo el proceso de poner el hilo, la bobina, etc. No se usa el pedal y te da la opcion de reforzar el inicio y fin de una costura ademas de que corta el hilo!!! Incluye el pedal por si lo requieres pero funciona perfecto si el. De acuerdo a muchos videos que vimos antes de decidirnos por este modelo, esta maquina es una de las faciles de usar y si tienes mas experiencia, podras sacar provecho de todas las opciones de configuracion que incluye para cada puntada. La funcion de bordar es un mundo aparte, pero no es nada complicado. Cuando recien la desempacamos, hicimos pruebas de coser y bordar y tambien es la cosa mas facil. Obviamente hay que tener idea de lo que estas haciendo, el tipo de tela el tipo de hilo y sobre todo elegir el diseno y colores adecuados pero en cuanto a la ejecucion bordar es cosa de 3 minutos para montar la tela en el bastidor, ubicar el diseno y presionar un boton para que haga lo demas sola. Definitivamente es de uso domestico o para un pequeno taller de costura. No creo que aguante un uso comercial intensivo, sobre todo porque el tamano maximo del dibujo es de 10 x 10 CM. Hay otros modelos que ofrecen mayor area de bordado pero su precio es mucho mayor. Me podrian ayudar De antemano Gracias El unico problema es que la garantia no es valida en mexico Estoy feliz con mis maquina.

Lo unico malo es que se pierde la garantia al ser un producto de origen norteamericano. Would have purchased another machine. Gracias por su comentario. Lo sentimos, no hemos podido registrar tu voto. Vuelva a intentarlo I had to download crossover for my girlfriends MAC and Sewart to be able to make my own images, and if I didnt do that, Id have to pay about 1015 dollars to have a file converted by a third party. The fact that they include an advertisement for an embroidery file website is OBSURD and awful, the information for Sewart should be included with this machine OR they should have their own file conversion program considering THEY MAKE THE MACHINES THAT USE THE FILES. That being said, the machine ITSELF is amazing and worth every penny, it was an amazing gift to give, but I reccomend using SEWART to digitize your countless images instead of buying the junk they sell per file on the promoted website I already had to buy the thread, and the machine, now they expect me to buy a file for a patch Its easier to not buy a machine and go to a third party to have patches made, or just buy patches at the dollar store with better quality images

that aren't overrated Disney movies. Buy your own digitizer program, DO NOT burn your money with the promoted websites they recommend. There are many affordable and easy to use programs out there, paying anything to have someone digitize a file for you is just stupid. Gracias por su comentario. Vuelva a intentarlo Having used Brother for years and using an embroidery only machine from Singer I am well versed in the mechanics and issues with both. This Brother machine is a lot quieter and feels smoother than the model I replaced it with. It was easy to set up but nowhere in the instructions did it state to touch the LED screen to start it I was lost at first as to why nothing was working you need to touch the screen to start. I also have noticed that the machine when in Zig Zag will skip stitched and often breaks the thread.

This may be due to it being on too fast of a setting or a tension error which I will play with however my older Brother never did this. I purchased this for sewing only as it was a great price for the features I need. And I appreciate how nice and bright the sewing surface is illuminated as well as how quiet it is in use. Gracias por su comentario. Vuelva a intentarlo When I realized how well it was as a sewing machine I looked around to get another one. Amazon had by far the best price with free shipping. It is quiet, easy to use with a really good manual and the auto threaded is the best I have ever used. I have six sewing machines, most much more expensive than this, but this has become my favourite. And it's a great embroidery machine as well. Good value. Gracias por su comentario. Vuelva a intentarlo Gracias por su comentario. Vuelva a intentarlo Je l'utilise depuis juillet 2018. Super bonne machine à coudre avec une quantité impressionnante de points intégrés. J'ai facilement appris à utiliser la fonction de broderie et j'adore. Plusieurs vidéos en ligne peuvent aider au départ, et il y a même un groupe fb dédié aux utilisateurs. Une petite note nettoyer souvent la bobine et la partie autour afin de toujours avoir un fonctionnement optimal. En bref, je la recommande! Gracias por su comentario. Vuelva a intentarlo There's a bit of a learning curve as it's her first time to use a sewing machine. But with lots of Youtube videos and the user manual, she was able to use it, mainly for the embroidery creation part. I also learn with her as she wants us to learn together or if she needs help I'm there to tell her what I know. We still have to learn the sewing part. So far so good we got this in May 2018, this is sturdy machine that does its job. It's beyond our expectations, we never knew that sewing machines can do embroidery too, and it's computerized.

I never knew Brother makes sewing machines until we reviewed sewing machines I only knew them for making label maker before, and they make high quality sewing machines. Gracias por su comentario. Vuelva a intentarlo Definitely a learning curve but very happy to learn and try. Shipping arrived earlier than predicted so I'm satisfied. This does not come with a designer software I managed to find some great open source software that is compatible. I'm having fun and I hope to find more time to work with this machine soon. Gracias por su comentario. Vuelva a intentarlo Sewing an upgrade with additional features from my existing Brother. Quieter when sewing and love the thread cutting and needle threading features. Embroidery function working great. Have used machine included designs and downloaded designs via USB. No problems with either. Easy to use once you familiarize yourself with the embroidery functions. Love this machine. Would highly recommend. Gracias por su comentario. Vuelva a intentarlo Have contacted a seller but no results as the seller said they are resellers and I need to contact the manufacturer directly. I still don't have a stylus since no help from both of them. They are just referring to contact back my seller. No results. As per actual sewing machine, I tried the machine works and different sewing styles as described. Haven't had a chance to try embroidery part yet. Gracias por su comentario. Vuelva a intentarlo But I didn't like its embroidery. I never had much luck with it, the thread would tangle and break and just be a general mess. Fast forward to now, and I now have two granddaughters who love dresses. I have had some medical issues since the early 2000s and sewing was the very last thing I wanted to do I've since had a couple of surgeries and feeling good. I wanted to try my hand at machine embroidery again, but the Viking was outdated.

I thought about buying another Viking but after doing research, I read so many negative reviews I was looking at the Viking Jade I just couldn't see paying the money. I finally decided on the Brother 600 because it had great reviews and seemed to have what I was looking for at about half the price of the Viking. I have bought Brother machines in the past for my daughters, but they were the cheap, basic machines. They never seemed to hold up for very long. So I was very nervous buying this one. Let me tell you, I am pleasantly surprised. This machine is a whiz. I've made sundresses with matching purses for my granddaughters, little zippered pocket pouches for my sewing accessories, and a whole host of things for a hospital neonatal unit that one of my friends who is an RN there asked me to make. And yes, I work full time in office as well. I've only owned it a few weeks and it is getting a workout. I am getting ready to make my sister-in-law and myself tropical themed zippered totes with embroidered initials. The embroidery it does a beautiful job. I love the fact that you can use the included embroidery patterns as well as uploading patterns from the internet. I confess I have not done that yet, baby steps. I heartily recommend this machine whether you are new at sewing or an old hand like myself. Gracias por su comentario. Vuelva a intentarlo Easy to use. Some of the embroidery patterns, included in the machine are not very good quality. Fabric shows through some areas where there should be stitching. I like that it has a USB port to add patterns and the various sized fonts are great too. Gracias por su comentario. Vuelva a intentarlo I watched all the YouTube videos on this machine and had some knowledge with other machines already. This machine by far runs smoother and quiet than others I used. The embroidery patterns come out much cleaner and professional looking than other machines I used. I am very happy with this purchase. Gracias por su comentario.

Vuelva a intentarlo Best features according to her are the automatic needle thread, the variable speeds, the drop in bobbin, and the variety of stitches. Great machine for the price! Gracias por su comentario. Vuelva a intentarlo Like you can in the states. It's a bit shady if you ask me having to pay this much still and don't get full use of the benefit. Gracias por su comentario. Vuelva a intentarlo.
